According to the Service Agreement & By-Laws of the Corporation, a separate meter is required for each residence, guest home, mobile home, business, apartment etc. A violation of this requirement can result in the membership being canceled and the Corporation pulling the existing meter.

Tampering with meters can result in charges & forfeiting your water membership. No connections shall exist with private well systems and your water supply line from Bethesda Water Supply Corporation. Meters will be periodically checked.

The Corporation's cut off valve at the meter is for Bethesda's use to service your meter. You will need to install an "easy to turn wheel type" cut off valve on your side of the meter. This valve will be for your use in case of an emergency or for any reason you may want to turn your meter off.

If you have any questions or need assistance in any way, feel free to contact the office Monday - Friday from 8:00 am to 5:00 pm or if an emergency exists call (817) 295-2131 and if the office is closed, the answering service will take the information and will forward to us. **Bethesda's fax # is 817-447-9370.**
